The Cyber World and MSA Security

Erin Eizenstat, Director, Research & Intelligence

Neil Moran, Vice President, Investigations

George Georgiades, Digital Forensics

Dwayne Edwards, Account Executive

Abstract

MSA security professionals involved in digital forensics, Investigations, and Intelligence will describe how the rapidly developing cyber world has heightened risks in various industries. These professionals then will discuss how organizations can address some of the security challenges posed by this new environment. The presentation will provide a great opportunity for students to learn about careers related to cyber security.

MSA is a security firm that provides threat protection and specialized security training for corporate and government clients. The company is noted for its use of information technology to minimize client vulnerabilities and to protect personnel and property.
